  - A new class is in the works:
    - Herbaceous II
    - Taught by Deb Knapke
    - May become available for this fall quarter
  - We also learned that students are able to request certain topics for new classes. A petition signed by a minimum of 12 participating students is needed. The classes would not be added to the curriculum and would not count towards required credits. A few suggestions for classes were:
    - Vegetable / Herb gardening
    - Organic gardening
    - Rain gardens
    - Garden trends
